

# CHAT CLUB BLAGOEVGRAD

Association Euni Partners, Bulgaria

Chat Club Blagoevgrad was created by volunteers to encourage young people to be more active in their free time, and help the volunteers from abroad to easily integrate with the local people by sharing their experience.

The club offers a space for discussion, sharing ideas, and cooperation but most importantly to exchange knowledge, and know-how and meet new people and create friendships.

Meetings are held once per week, in the evenings, and have a wide range of different activities to offer, including discussions about a particular event or important topics (Global warming, Human rights, Disability, Racism), sharing experience and training such as First Aid, Public speaking and etc., debates, movie nights, game evenings and intercultural nights.

All meetings are hosted in a local café, where the owners provide the space for free.

# POTENTIAL FOR TRANSFER

The Chat Club is a great way for sharing new ideas, trainings, and self-development techniques while using a different approach, usually in the form of games, presentations, with a fun factor.

It is meant to raise awareness on important and current topics, promote volunteering, and can be easily transferred everywhere with minimum costs.

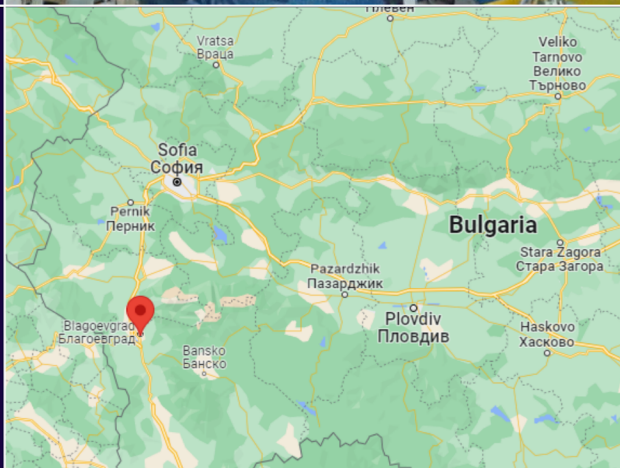

## HOW TO START

- Secure funding for space rental, printing promotional materials and supplies for themed events
- Form a team that will organize activities
- Establish a partnership with high schools, universities and other NGOs that can help spread information among other volunteers and young people
- Promote and implement Chat Club activities
