

"COME TO AMFI" FESTIVAL

Club for Youth Empowerment 018 (KOM 018), Serbia

"Dođi na Amfi" (Come to Amfi) is a Hip Hop culture festival that promotes street art through different topics, using different tools such as graffiti, break dance, hip hop music, photography, comics, basket 1 vs 1 and similar.

The festival advocates for and promotes social values such as respect of human rights, intercultural dialogue, social inclusion, combat against hate speech etc.

The festival is organised in cooperation with partners from Czech Republic, Poland, Slovakia, Hungary, Bosnia and Herzegovina, Albania, North Macedonia and Austria.

It supports young artists from these countries and builds their capacities through the support of their senior and more recognized colleagues through the organisation of the festival.

POTENTIAL FOR TRANSFER

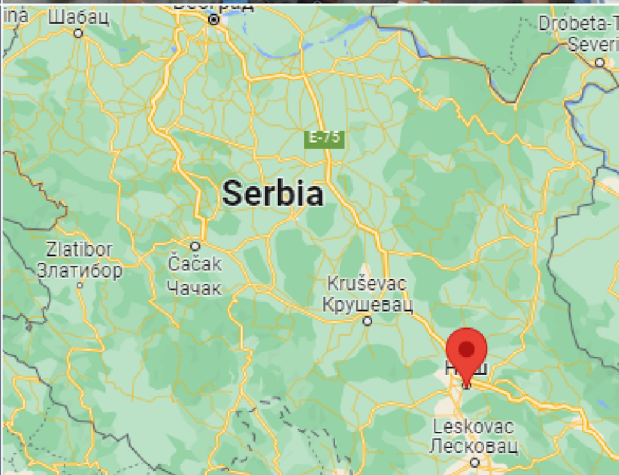

This event gives young artists the opportunity to share and expand their skills with artists who have been on the art scene for many years.

The concept of involving volunteers in a team that organizes events is easily applicable to other types of events. Volunteers have the opportunity to learn and feel what it is like to be in of this type and work in teams, which gives them the experience of working in a team spirit.

HOW TO START

- Secure funding for organisation of the music festival
- Create a network of international partners
- Perform a needs assessment for preparation of a suitable program and include artists from partners countries
- Publish an international call for artists and performers
- Enlist and train volunteers
